

ASTRO HINDON SELECT

An ideal solution for those with progressive neurological illnesses, this chair can be used for maximum independence to start with, with the option of being used as a hoist-in chair at a later stage.

MADE IN BRITAIN

The Astro Hindon Select is a mobile Rise and Recline chair providing users with a “best of both worlds” specialist seating solution. Designed as a “future-proof” specialist chair, it can be used either as a static riser recliner chair, or as a mobile riser recliner, with robust 4” castors.

Its revolutionary design allows the seat dimensions (width and depth) to easily be adjusted to either accommodate the possible changes to the users seat width, or to be adjusted to the dimensions of multiple users.
