

ASTRO PORTA

The Astro Porta has been designed and developed to be one of the most affordable care chairs on the market today, without compromising on quality. What's more, it is ultra-simple for carers to use and is easy to manoeuvre.

MADE IN BRITAIN

It offers an excellent seating solution and provides exceptional comfort for users with a wide variety of needs. The Astro Porta is a manual, tilt-in-space chair with built-in pressure relief, legrest elevation and an optional adjustable footplate. This chair meets the needs of 85% of nursing/care home residents and many community users.
