ABOUT CLEARLINE

Clearline, are specialist providers of ultra-comfortable, affordable seating and wheelchair solutions tailored to the needs of residents in nursing and residential care homes across the South of the UK.

We work closely with care home teams and clinicians to deliver high-quality, practical seating options that enhance resident comfort, mobility, and wellbeing. Our process includes thorough on-site assessments to understand each resident's clinical and personal needs, ensuring the right solution is provided every time.

What sets us apart? - Very simply: our commitment to working with all persons concerned to build strong, ongoing relationships with care homes, supporting staff with training, guidance, and rapid responses to changing needs. Our team is proud to uphold a culture of care, honesty, and professionalism in everything we do.

"How do I buy a chair for a loved one in a care home, and how do I know it'll meet their needs?"

- Get in touch – Call us on 01722 410387 or email: sales@clearline-uk.com to let us know you're interested.
- Initial questions – We'll ask for basic details like: size of the client, degree of mobility, postural and pressure care needs etc - to determine which of our comprehensive range of chairs we would recommend. We also provide a guide price at this stage for the appropriate chair.
- Free assessment – If you're happy with the price guide, we'll arrange a no-obligation, in-person seating assessment at the client's place of residence - at no cost!
- Tailored support – During the visit, we assess everything including posture and comfort to pressure relief and other specific needs.
- Final quote – You'll receive a detailed quote based on the assessment. This may vary slightly from the initial guide, depending on the chair and accessories required.
- Ready to proceed? – If you have questions or wish to order, just call us and our team will assist. Our after-sales back-up is second-to-none!

You may be eligible for VAT relief!

Contact our friendly team to discuss. We are happy to help!

The Astro Adjusta is our entry-level riser recliner, designed for ambulant or semi-ambulant users with milder disabilities. It offers comfort, support, and durability with waterproof outer fabric and soft, breathable contact surfaces.

ASTRO ADJUSTA

Therapeutic Riser Recliner

Key Features:

- Available as a single, dual or 3 motor tilt-in-space
- 3 motor provides separate tilt-in-space, backrest, legrest/rise
- Various backrest cushions available (cocoon, waterfall, thoracic)

- Fixed Back
- Drop-down armrests
- Swing-away detachable footrests
- Puncture proof tyres
- 30cm rear wheels
- 20cm front wheels
- Wheelchair seat is 40cm deep x 43cm wide

The 'Turn-All' is an automatic mattress tilting device that fits under most alternating air or foam mattresses.

Its unique side support system offers stability, pressure relief, and shear reduction, with built-in safety to help prevent falls and discomfort.

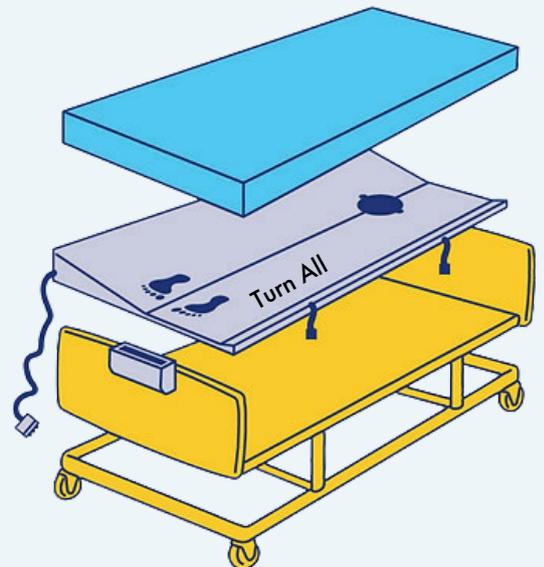

TURN ALL TILTING SYSTEM

The quiet, gentle 30° side-to-side tilt provides effective pressure and pain relief for those spending long periods in bed.

By reducing the need for manual repositioning, it minimises carer strain and frees up time for other care tasks—saving time and money.

- Supports up to 225kg (Bariatric version available up to 400kg)
- Very easy to fit and operate
- Save on resident/patient discomfort and interruption
- Save on carer input and manual handling
- Ensure adequate and regular bed re-positioning
- Relieves tissue compression and improves blood and lymph flow
- Greatly reduces risk of pressure sores.

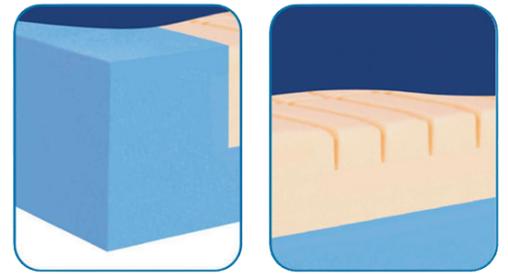

SPHYNX MATTRESS

The Integrity Sphynx™ Very High Risk castellated mattress is designed for comfort, safety, and effective pressure relief. Originally developed for hospitals, it's now widely used in care homes and home care settings.

Key Features:

- Castellated foam surface helps redistribute pressure and enhance comfort
- U-shaped base and side formers support safe, easy transfers
- Multi-stretch, vapour-permeable PU cover aids infection control
- Welded seams prevent fluid ingress and simplify cleaning
- Clinically trialled for proven safety and effectiveness
- Weight Capacity 40 stone

TREAT EEZI RANGE

Treat-Eezi Full Length Pressure Relieving Mattress Overlay Very High Risk to Stage 4

LOW PROFILE PRESSURE RELIEF for very high-risk patients (up to stage 4 ulcers). The Treat-Eezi offers silent, pump-free pressure relief that moves naturally with the body to reduce friction and support healing.

Features:

- Silent, static design—no pump or maintenance required
- Promotes healing through natural movement and airflow
- Washable to 92°C and bleach-safe (no softeners)
- Anti-microbial and X-ray translucent
- Backed by a 2-year warranty
- Vapour-permeable covers available for multi-patient use
- Supports up to 25 stone (159 kg)
- Ideal for: Elderly patients, post-operative recovery, long-term bed rest, and carers seeking reliable pressure care at home.
- Dimensions: 195 cm x 90 cm x 5cm

Treat-Eezi Seat Pad Overlay

Lightweight & Portable Chair Pad for Pressure Relief

Very High Risk to Stage 4

This 4-layer static pad offers effective pressure relief on any foam-based seat—wheelchair, recliner, sofa, car, or office chair. It moves naturally with the body to reduce friction and support healing.

Benefits:

- Silent, pump-free design
- Breathable, anti-microbial, & washable to 92°C
- X-ray translucent | 2-year warranty
- Supports up to 25 stone (159 kg)

Treat-Eezi Community Mattress Overlay

Portable Bed Pad for Pressure Relief

Very High Risk to Stage 4

This compact 4-layer overlay offers silent, breathable pressure relief and folds easily for travel—unlike bulky traditional systems.

Benefits:

- Portable and discreet - fits in most travel bags
- No pumps or noise - just natural movement with the body
- Breathable, anti-microbial, washable to 92°C
- Supports up to 21 stone (129 kg)

POSITIONING CUSHIONS

Who are they for?

Anyone at risk of developing pressure ulcers and needing postural support including individuals with:

- Neurological conditions
- Physical disabilities
- Medical issues affecting mobility, function, or overall physical health

Why is it important?

- Relieves and redistributes pressure on vulnerable areas
- Provides essential postural support
- Helps correct poor posture
- Enhances comfort and overall wellbeing
- Assists caregivers in managing daily care more effectively

FALL PREVENTION MATS

Call Alarm Mat Systems

When positioned strategically, the mat activates the nurse call system when a patient rises from a bed or chair and steps on to it.

Alerta Chair Nurse Call Alarm Mat & Monitor

These Alarm Mats are most effective when concealed under the chair cushion to provide carers advanced warning when a resident gets up and is at risk of falling.

Wireless Bed Alertamat with Transmitter

When the occupant leaves the bed it transmits a signal via its inbuilt transmitter to provide the caregiver with advanced warning when a user is at risk of falling.
